

The background is a dark, textured illustration of a jungle. It features various types of green leaves, some with prominent veins. A toucan with a large orange beak is visible on the left. A colorful parrot is perched on a branch in the upper right. A tiger is depicted in the lower right, looking towards the center. Small clusters of blue and purple flowers are scattered throughout the foliage.

GENERAL FAQs

Q: Do your wallcoverings meet commercial fire code requirements?

A: Yes, all of our wallcoverings are Class A fire rated.

Q: Do you have available inventory that can ship immediately?

A: Yes, we have stock available for most of our wallcoverings at our New Jersey warehouse. Please check with your sales representative for available stock.

Q: Where are your wallcoverings designed?

A: We have an in-house design studio in Soho, New York.

Q: Are your products Type II?

A: Type II is a designation that applies only to vinyl. With that said, all of our vinyls are Type II.

Q: Does Innovations offer custom wallcovering?

A: Yes, contact your sales rep to start a custom project.

SEPIA LIGHT

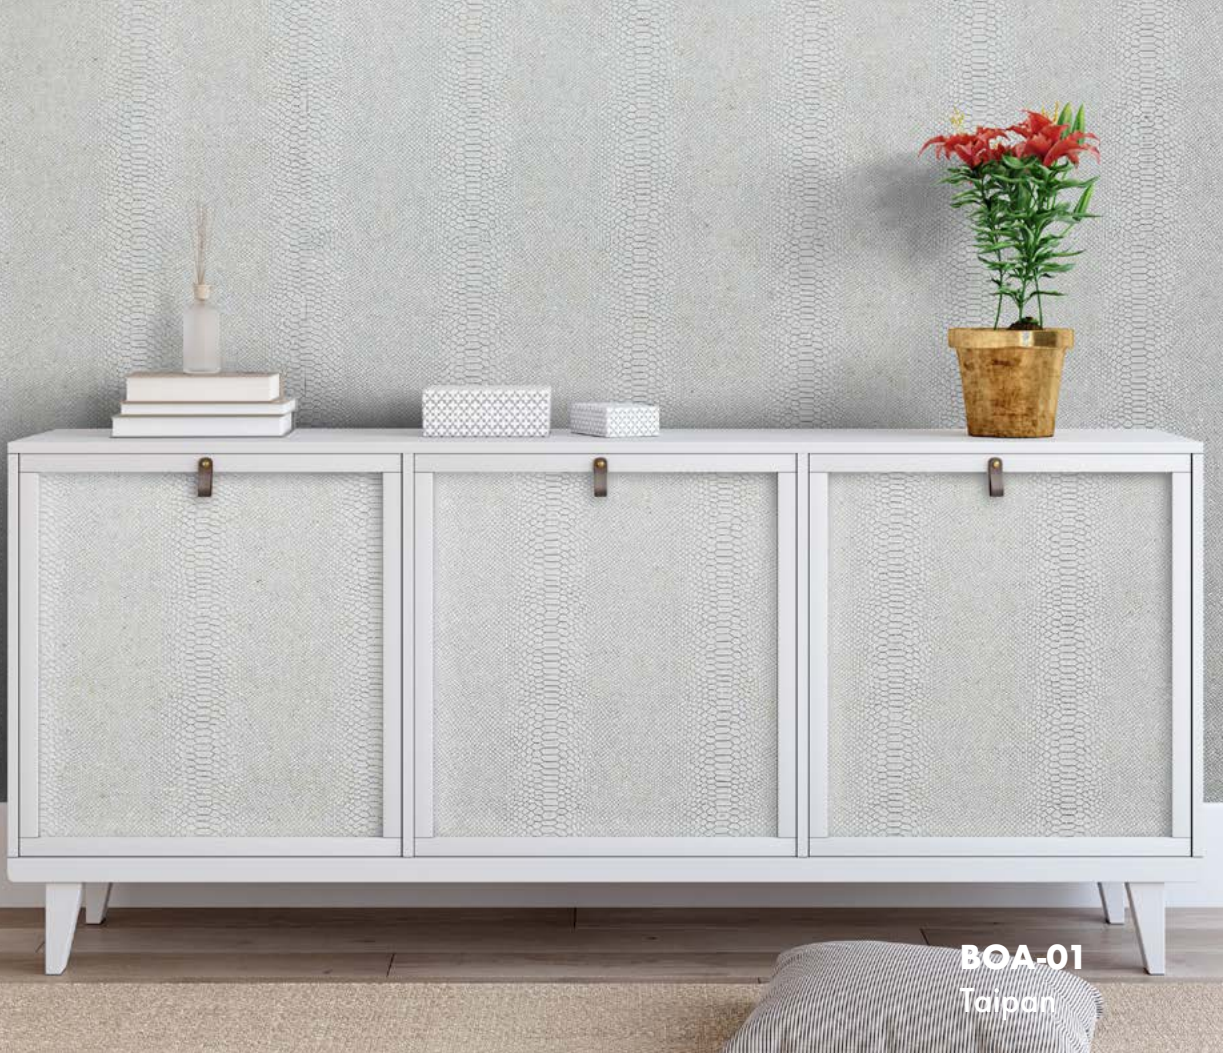

INSPIRED MATERIALS

The medium is the message. We search the world for inventive materials like banana bark, shells, and wood veneers to develop wallcoverings that inspire interiors. At Innovations, we explore cutting-edge techniques and material wherever they lead, ensuring the surfaces we create make a statement.

BOA

Made with cork commonly used in the high-end fashion industry, we have reimagined the material for walls.

BOA-02
Racer

BOA-03
Mamba

ADDITIONAL COLORWAYS

SPECIFICATIONS

SOLD BY: 12 yard roll minimum*

COMPOSITION: 50% Cork/ 35% Resin/ 15% Cotton

BACKING: Non-Woven

REPEAT: H: 7 7/8"

WIDTH: 52" (132 cm)

FIRE RATING: ASTM E84 - Class A

*A minimum order of one roll, but may be ordered in increments of 4 yards after purchasing one roll, for a one-time cut fee of \$35

FAQS

Q. How is this made?

A. Boa utilizes a three-step process that begins by embossing cork which is then laminated to a non-woven backing. The final step is applying a foil by heat transfer giving it metallic highlights.

Q. What is the recommended installation?

A. Medium to high traffic areas, suitable for contract and residential usage.

Q. Will this show seams?

A. No, Boa is seamless when installed properly.

Q. Can this be wrapped around corners?

A. Yes, when installed correctly.

HUNTRESS

Hand-cut Paulownia veneers are arranged in a playful, yet uniform, pattern.
