# About the collection...

More than ever, we yearn for calming textures and colors to fill our homes and soften the transition as we redefine our interior spaces. The Harmony collection embodies the need for beauty and versatility within interiors.

From playrooms to boardrooms, these new wallcoverings provide the perfect backdrop for today's multi-functioning spaces.

The FA20 collection features 9 new wallcoverings  
and the recoloration of our timeless pattern, Saigon.

# Petals

Bring the inherent beauty of nature indoors with Petals, a grasscloth dressed in a sophisticated and serene mid-scale print.

## Can Petals be printed on a Type II substrate?

Yes, Petals can be printed on Type II or any other base for minimal yardage. Please contact your sales representative for further details.

PET-01 Lurie

PET-02 Knox

PET-03 Mila

Roll Size: 12 yards

Composition: Sisal

Backing: Paper

Repeat: H: 34" V:34"

Width: 36" (91 cm)

Weight: 6 oz/lineal yard (200 gsm)

Fire Rating: ASTM E84 Class A

Installation: Medium traffic areas | Minimal seaming when installed properly

# Canvas

Like the starting point for artistry and painting, this detailed paper weave imitates an extremely durable canvas.

Aptly named, Canvas is a timeless texture with a tightly woven construction and casual color palette.

Canvas offers a quiet background for the ever-evolving interiors of today, from dens to dining rooms.

Sold By: The yard (3 yard minimum)  
Roll Size: 30 yards

Installation: Medium traffic areas | Seamless when installed properly

CVN-01 Powder

CVN-02 Heather

CVN-03 Script

CVN-04 Splash

CVN-05 Brick

# Volute

Digitally printed on cork,  
Volute is a modern-day fresco.

Volute's picturesque print, reminiscent of ornate brushstrokes, offers a traditional old world feel with the appeal of an environmentally sustainable ground.

Complemented by three neutral colorways, Volute blends a painterly quality with a subtle shimmer for a look that reads understated glamour.

VOL-03 Gali

VOL-01 Maya

Can Volute be printed on a Type II substrate?

Yes, Volute can be printed on Type II or any other base for minimal yardage. Please contact your sales representative for further details.

Installation: Medium traffic areas | Seamless when installed properly

# Fika

Fika is defined as a Swedish ritual of spending quality time with friends and family, to share the good things in life over coffee.

Fika embodies this feeling with small flecks of color woven together creating a cozy heathered look.

This inviting texture provides the perfect backdrop for these small and meaningful moments. Complete with a soothing color palette, Fika instills a sense of tranquility that we need more than ever as we transform our homes into shared workspaces.

 Installation: Medium traffic areas | Seamless when installed properly

# Saigon

A longstanding classic, Saigon is a vinyl interpretation of a painted grasscloth. From pattern to color, this elevated Type II vinyl offers timeless style while nurturing a soothing atmosphere where it matters most.

With the addition of eight new matte and two-tone pearlescent finishes, Saigon's durable design and range of colors meets the demands of today, providing the perfect backdrop for playrooms and board rooms alike.

## Is Saigon a clean vinyl?

Yes, Saigon is a clean vinyl and is phthalate free and meets low VOC requirements for CA- 01350.

# Sonder

Sonder, a rustic woven whose complex weave structure was inspired by the feeling that everyone, including strangers, is living a life as complex as your own.

Applying that emotion to the landscape of interiors and pairing undeniable texture with a dynamic color palette, Sonder fits every surrounding from traditional to transitional.

SOD-01 Powder

SOD-02 Mist

SOD-03 Dune

SOD-04 Shadow

SOD-05 Marina

SOD-06 Currant

Sold By: The yard (3 yard minimum)

Width: 36" (91cm)

Weight: 8 oz / lineal yard (271 gsm)

Fire Rating: ASTM E84 Class A

Installation: Medium traffic areas | Minimal seaming when installed properly

# Serenity

Reminiscent of a linen textile, Serenity features a plaid overlay of delicately woven threads intermixed with organic slubs.

The open weave pattern is laminated to a glimmering pastel paper, providing a quiet elegance to today's complex and multi-functioning interiors.

What is the cellulose product for the woven layer?

Cellulose is a plant fiber that is the initial product for paper, textiles etc.

SER-01 Calm

SER-04 Petal

SER-01 Calm

SER-02 Sterling

SER-03 Sand

SER-04 Petal

SER-05 Aero

Width: 36" (91cm)

Weight: 7oz/lineal yard (250gsm)

Fire Rating: ASTM E84 Class A

Installation: Medium traffic areas | Seamless when installed properly

# Cinder

Cinder layers similar color tones on a metallic film to create an inviting pattern and illustrates the beauty of balance within interiors.

The tonal texture of this Type II vinyl is enhanced with small-scale abstract details inspired by mid-century modern design.

Shimmering accents mirror dappled light patterns adding unforgettable visual impact to indoor environments in an interesting way.

### Is Cinder a clean vinyl?

Yes, Cinder is phthalate free and meets low VOC requirements for CA 01350.

Fire Rating: ASTM E84 Class A

Installation: High traffic areas | Seamless when installed properly

# Pixel

Pixel's textured design resembles the look and feel of a dimensional textile in a Type II vinyl.

The pattern finds balance with a coloration that ranges from soft pastels to rich jewel tones.

Metallic glints throughout illuminate the surface giving it an appearance of subtle movement. The depth in design and color of this Type II vinyl can foster a sense of serenity or exuberance that will hold up to the highest of traffic areas.

Is Pixel a clean vinyl?

Yes, Pixel is a clean vinyl, phthalate free and meets low VOC requirements for CA 01350.

Fire Rating: ASTM E84 Class A

Installation: High traffic areas | Seamless when installed properly

# Keramos

Keramos celebrates the colors and designs of Grecian pottery in a large-scale geometric print. Skillfully applied gradation of color adds a layer of dimension and a nuance of light to the weave structure, mirroring the maze design of a labyrinth.

The complexities of the color palette are enhanced by a gentle shimmer giving a luxe texture to this natural woven.

## Can Keramos be printed on a Type II substrate?

Yes, Keramos can be printed on Type II or any other base for minimal yardage. Please contact your sales representative for further details.

# general FAQs

**Q: Do your wallcoverings meet commercial code requirements?**

A: Yes, all of our wallcoverings are Class A fire rated.

**Q: Can your natural products be wrapped around corners?**

A: Most of them can be but some patterns are more difficult. Please visit "Wrapping Corners" on our website's product specific hanging instructions.

**Q: Do you have available inventory that can ship immediately?**

A: We maintain stock on a majority of our wallcoverings at our New Jersey warehouse.

**Q: Where are your wallcoverings designed?**

A: We have an in-house design studio in Soho, New York.

**Q: Are your products Type II?**

A: Type II is a designation that applies only to 20 oz vinyl. With that said, almost all of our vinyls are Type II.

**Q: Does Innovations offer custom wallcovering?**

A: Yes, please contact our customs department at [customs@innovationsusa.com](mailto:customs@innovationsusa.com) or your sales representative.

**Q: Are you able to discount to meet hospitality budgets?**

A: Yes, we are able to discount based on volume to meet most hospitality budgets.

**Q: Can I request a one yard sample? If so, how quickly?**

A: If your job meets our quantity criteria, yes. Contact your sales representative for more information.

**Q: Do you have full repeat high-res images?**

A: For most of our wallcoverings we do have high-res images showing full repeats.

**Q: Do you have installation images in every colorway?**

A: For most of our large-scale wallcoverings, yes. If not, we can place it into a CG room setting.

**Q: Can your products be micro-vented?**

A: Micro-venting only applies to non-permeable (vinyl) wallcoverings. In most cases, we can micro-vent our vinyls but please ask your sales representative for details, including microventing costs and minimums.

**Q: Do your products contribute toward LEED?**

A: Many of our wallcoverings contribute to low VOC requirements. For more information or to learn if a specific product contributes toward LEED, please contact your sales representative.

**Q: Do you recommend a particular adhesive when installation of your wallcovering?**

A: Please visit [www.innovationsusa.com](http://www.innovationsusa.com) for installation instructions and product recommendations.

**Q: What size are your wallcovering samples/memos?**

A: 7" x 9" or larger depending on the wallcovering pattern.

**Q: What is your return policy?**

A: Please visit [www.innovationsusa.com](http://www.innovationsusa.com) for our terms and conditions.

**Q: Are your products IMO?**

A: Many of our vinyls pass IMO and more will be available soon. For more information or to learn if a specific product passes IMO, please contact your sales representative.
