WE TAKE GREAT PRIDE IN
OUR FIREPLACES. EVERY
STONE OR MARBLE
CHIMNEYPiece THAT WE
MAKE HAS A CHESNEYS
PLAQUE SET INTO THE
REVERSE OF THE MANTEL.
THIS IS OUR HALLMARK.
IF YOU DON'T SEE THE
PLAQUE IT ISN'T ONE OF
OUR FIREPLACES

AN INTRODUCTION TO CHESNEYS

For many years we have restored antique fireplaces at our workshops in London. Conserving and reviving an 18th century marble chimneypiece is a painstaking exercise which requires an extraordinary level of skill, expertise and patience.

There can be no compromises in the process, and it is this rigorous approach which has guided the development of our entire range of designs over the years, and which has come to set a Chesneys fireplace apart from all others.

A fireplace should be the primary focus of any room, and therefore we ensure that every one of our fireplaces embodies the finest craftsmanship and integrity of design.

This new brochure is our most comprehensive to date. We have added new designs to our established Historical and Contemporary Collections, the latter showcasing the talents of contemporary designers, most recently in collaboration with the renowned New York designer, Eric Cohler.

We have also added an exciting new range of bio ethanol fires to suit both traditional and contemporary interiors where a flue is not available.

Our ranges of wood burning stoves, gas fires and fireside accessories all make an appearance on the following pages but can be seen in more detail in separate standalone brochures.

I hope that you will find plenty to enjoy.

A CHESNEYS FIREPLACE

SHOULD BE THE BEST THERE IS

THAT WAS OUR AIM WHEN WE FOUNDED THE COMPANY OVER 30 YEARS AGO AND IT REMAINS THE SAME TODAY. IN SETTING OUT TO ACHIEVE THIS WE REMAIN PASSIONATELY COMMITTED TO OUR KEY VALUES.

DESIGN

Integrity of design is intrinsic to every Chesneys fireplace. Our period fireplaces are exact copies of antique originals recognised by conservation bodies worldwide for their authenticity. Our contemporary fireplaces are the handiwork of leading contemporary designers to reflect current trends in interior decoration.

CRAFTSMANSHIP

Outstanding craftsmanship means using traditional techniques in our manufacturing whether hand carving a marble chimneypiece or forging steel on a blacksmith's anvil. These are labour intensive and highly skilled processes for which there is no substitute.

MATERIALS

We consistently search for the finest materials, visiting quarries throughout Europe and Asia. We are forever looking to add to the range, and quality of materials that we offer, and to find original and inventive ways of using these new materials.

INNOVATION

Our aim is always to innovate. We continually work on new design concepts and ways to refine our existing products. This brochure introduces many new products, including additions to both our period and contemporary ranges as well as our 'museum' collections.

The image features several large, irregular pieces of stone and marble. On the left, there are two pieces with a yellowish-gold base color and dark, wavy veins. On the right, there is a larger piece with a greyish base and irregular, light-colored spots. The background is a blurred, warm-toned wall. The text is overlaid in the center-right area.

SUZANNE TUCKER

SAN FRANCISCO DESIGN ICON
SUZANNE TUCKER'S
COLLABORATION WITH
CHESNEYS STEMS FROM A
SHARED APPRECIATION OF
FINE CRAFTSMANSHIP AND
SOPHISTICATED DESIGN.

Following her extensive and regular travels throughout Italy, France and England, Suzanne has taken inspiration from the decorative arts and ornamental vernacular in each of these countries.

THE VOLTAIRE

Carved in Limestone, the Voltaire is inspired by a transitional period in the early 18th century when a reaction against the formality of the Louis XV period saw decoration and furniture become increasingly light and curvaceous.

SPECIAL MATERIALS COLLECTION

A COLLECTION OF RARE AND BEAUTIFUL NATURAL MARBLES FOR
THE MANUFACTURE OF FIREPLACES

Chesneys have re-visited the eighteenth century practice of sourcing rare and beautiful materials for use in the design of fireplaces.

In some cases it is as much the material as the design that gives a fireplace its unique appeal. On the following pages are examples of a number of rare and beautiful natural marbles that Chesneys holds at its factories. Many of the designs in our standard range can be executed in these materials as can client's bespoke designs, depending on the availability of material from time to time.

These materials originate from quarries throughout Europe and further afield. The images shown of the various materials can only be broadly indicative as colour and veining change with every block that is quarried.

Pages 60 - 65

Opposite The simple architectural form of a bolection moulding is the ideal vehicle for vibrantly coloured and strongly figured French Breche de Vendome marble.

THE COLLECTION

Shown here are a selection of materials from various quarries around the world which provide an insight to the beautiful array of choices available for a truly unique fireplace.

EN TRUMEAU

AN EN TRUMEAU FRENCH
CHIMNEYPiece WILL ENHANCE THE
ARCHITECTURE OF ANY ROOM

The term en trumeau describes a decorative panel, mirror, or in this case, the continued section of a chimneypiece that sits on the mantel shelf.

THE LIMOGES

A handsome example of an en trumeau cheminee from the reign of Louis XIII, incorporating a bolection mould framing the fire chamber, with an oval medallion flanked by ionic pilasters within the overmantel.

Shown here in Bianco Avorio limestone with Reeded fibre interior panels, Morris 22" forged steel fire basket for dogs, Burton andirons and black slate hearth and slips.

The size of each en trumeau chimneypiece is dictated by the proportions and dimensions of the room into which it is to be installed and so every one is custom-made to suit your home.

EN TRUMEAU

THE EN TRUMEAU DESIGN WAS EXECUTED IN NUMEROUS FORMS DURING THE 17TH, 18TH AND 19TH CENTURIES THROUGHOUT FRANCE

THE MONTRICHARD

A late 17th century cheminee of simple architectural form from the Loire Valley with bolection moulding and corniced en trumeau section with a central domed panel.

THE ANGERS

An early 18th century cheminee of imposing proportions with tapering inset panels to the jambs and a double cornice to the en trumeau section broken by a domed panel.

THE SIZE OF EACH EN TRUMEAU CHIMNEYPiece IS DICTATED BY THE PROPORTIONS AND DIMENSIONS OF THE ROOM INTO WHICH IT IS TO BE INSTALLED AND SO EVERY ONE IS CUSTOM-MADE TO SUIT YOUR HOME

THE BLOIS

An elegant cheminee dating from the Regency period incorporating attractive carved elements within the cornice and en trumeau panel and with a conforming cartouche to the centre of the supporting frieze.

THE VENEZIA

A robust Renaissance design with heavy console jambs supporting a frieze of simple architectural form beneath a deep en trumeau section.

THE SOANE COLLECTION

A COLLECTION OF EXACT REPLICAS OF DESIGNS FOR CHIMNEYPieces FROM THE ARCHIVES OF SIR JOHN SOANE'S MUSEUM UNDER EXCLUSIVE LICENCE

The first modern English architect, Sir John Soane was one of the most influential and original of all English architects. Working in London in the late 18th and early 19th centuries, he produced designs for both private residences and institutions, most notably The Bank of England and elements of the Prime Minister's residence in Downing Street.

Soane's work was characterised by the simplification and stylisation of classical form and detail. He produced designs of quite extraordinary modernity which even today serve as an inspiration to contemporary architects.

Soane's unique ability to combine classicism and modernity is seen no better than in his designs for chimneypieces. The simplicity and

refinement of detail that he uses will suit both contemporary and traditional interiors alike.

Soane's greatest legacy was the museum he created at Lincoln's Inn Fields in London, which houses innumerable classical artefacts, drawings and works of art and is considered by many to be the finest historic 'house' museum in the world.

ONLINE ARCHIVE

Soane's archive of chimneypiece drawings numbers nearly 200 in total. These can be viewed on a website specially created for this purpose at:

www.chesneys.co.uk/products/fireplaces/soane-archive

Chesneys is able to reproduce any design contained in this archive to order.

THE **SOANE** PATTERN VI

This is probably the best known of all Soane's chimneypieces and can be seen in situ at the Sir John Soane Museum in London. The design incorporates precise linear detailing and relies on perfect masonry skills for its manufacture. It is shown here to striking effect carved in black Nero Bilbao marble.

THE SOANE PATTERN IV

This chimneypiece exemplifies Soane's unique ability to reinterpret classical form and produce a design of stunning modernity. The inverted bow to the pilasters and stylised Greek Key motif could only have been conceived by Soane. The chimneypiece was originally commissioned for a property in Grosvenor Square, London in 1803. Shown here in statuary marble with the 22" Byron forged steel fire basket and black slate hearth and slips.

THE LUTYENS COLLECTION

‘...tradition to me consists in our inherited sense of structural fitness, the evolution of rhythmic form by a synthesis of needs and materials...’

Sir Edwin Lutyens

THESE CHIMNEYPICES BY SIR EDWIN LUTYENS HAVE BEEN CAREFULLY CHOSEN TO SHOW HIS UNIQUE ABILITY TO TRANSLATE THE TRADITIONAL ARCHITECTURAL VOCABULARY INTO NEW FORMS THAT SUCCESSFULLY COMBINE CLASSICISM AND MODERNITY

Sir Edwin Lutyens (1869-1944) is widely regarded as one of the greatest British architects. The scope of his work was enormous, encompassing a wide variety of styles and including private residences, garden landscapes, commercial buildings and war memorials.

Lutyens' style was never derivative and always bore the mark of his own unique touch. His genius lay in his ability imaginatively to adapt traditional architectural styles. His chimneypiece designs have a timeless quality deriving from their robust, unfussy detailing and well proportioned architectural form and it is this quality that renders them so suitable for both period and contemporary interiors.

Chesneys is proud to reproduce a collection of some of Lutyens' finest designs for chimneypieces with the blessing of the Lutyens family and of the Lutyens Trust in a co-operative endeavour that is the first of its type.

PATTERN No. 5

A chimneypiece of classical form with detached columns terminating in Ionic capitals shown in statuary marble with Dark Emperador columns and frieze. It is shown with the forged steel 22" Morris fire basket for dogs, Burton andirons, Reeded cast iron interior panels and black slate hearth.

THE LUTYENS COLLECTION

PATTERN No.1

A re-working of the bolection with the raised moulding framing the aperture, in statuary marble. It is shown with the forged steel 22" Morris fire basket and black slate hearth and slips.

PATTERN No.2

Lutyens re-imagined the bolection in many different forms. This is a robust example with deep mouldings carved in statuary marble. Shown with the Cubitt register grate and black slate hearth.

THE **ADAM** COLLECTION

A COLLECTION OF EXACT REPLICAS OF DESIGNS FOR CHIMNEYPieces FROM DRAWINGS FROM THE OFFICE OF ROBERT AND JAMES ADAM

THE ADAM COLLECTION IS MADE UNDER EXCLUSIVE LICENCE FROM SIR JOHN SOANE'S MUSEUM, WHICH HOLDS THE LARGEST COLLECTION OF DRAWINGS BY THE GREAT 18TH CENTURY ARCHITECT

Robert Adam
(1728-92)
was the most
influential and
original architect
of his age

Robert Adam is rightly credited with the popularisation of the style that is known as Neo-classical and which defined the later Georgian period. Returning to England from Italy in 1758 he introduced a style of architecture and interior decoration based on design ideas from ancient Greece and Rome, interpreting and applying this classicism in a light and playful manner.

Sir John Soane, himself an architectural visionary, described Adam's work as a "revolution in art" and it unquestionably influenced every aspect of interior decoration during the late 18th century. Adam devoted much time to applying this new form to the design of fireplaces, recognising, like all great architects, that a successfully executed fireplace is the key to the balance and symmetry of a room.

ONLINE ARCHIVE

The archive of Adam's chimneypiece drawings numbers over 300 in total.

These can be viewed online at:

THE KNATCHBULL

Designed in 1763 for Sir Edward Knatchbull, 7th Baronet, for the hall at Mersham-le-Hatch in Kent. Construction of the house began in 1762 to designs by Adam, was completed in 1772 and was Adam's first completely newly-built house.

The notoriously parsimonious Sir Edward simplified the design of this chimneypiece to reduce its cost and it survives in situ in the property.

THE BEAUFORT

Designed in 1768 for the 5th Duke of Beaufort, for the dining room at 5, Grosvenor Square, London. The Duke was married to Elizabeth Boscawen, whose father had used Adam for work at Hatchlands in Surrey. The dining room chimneypiece was executed by Thomas Carter junior, a renowned chimneypiece maker, in accordance with Adam's design at a cost of £38, but lost when the house was demolished in 1961.

THE GEORGIAN SOCIETY

THE FITZROY CHIMNEYPiece WAS SELECTED BY THE GEORGIAN GROUP TO REPLACE A PAIR OF CHIMNEYPieces LOST FROM ITS HEADQUARTERS IN FITZROY SQUARE IN CENTRAL LONDON

The Georgian Group is the national charity dedicated to the preservation of Georgian buildings and gardens throughout Britain. Every year the Group helps save many important buildings and is instrumental in preserving Britain's unique architectural heritage.

Sales of every Fitzroy chimneypiece will produce valuable revenue for the Group. As with so many charitable bodies, it relies heavily on public support and it is hoped that sales of this chimneypiece will contribute substantially to the Group's funding requirements.

'The Georgian Group is very pleased to be working with Chesneys on this project. The Fitzroy is a handsome chimneypiece, and in keeping with the rest of Chesneys Georgian collection, offers the opportunity to own a replica classical chimneypiece with historically accurate detail.'

BESPOKE SERVICE

WE CAN MAKE A FIREPLACE OF ANY DESIGN, BE IT A REPRODUCTION OF A VALUABLE ANTIQUE OR IN THE MOST CONTEMPORARY STYLE

We can produce a fireplace in any material, working from photographs, magazine cuttings, sketches or drawings. The successful production of a bespoke fire surround can rely on many specialist skills: designer, draughtsman, architectural historian, clay modeller and finally, mason, carver and metal worker.

Our long established and experienced bespoke department harnesses all these skills. The range of products that we undertake is hugely varied with many clients wishing to commission individual pieces.

Pages 160 - 167

Opposite A contemporary design by New York designer, Eric Cohler, combining marble and patinated steel, initially commissioned on a bespoke basis, now forms part of Eric's Designer Collection for Chesneys as The Ealing. See page 34 for details.

AN IRISH COUNTRY HOUSE

When London based interior decorator Susie Beart was asked to decorate an 18th century Irish country house she came to Chesneys for the chimneypieces. By commissioning bespoke copies she was able to specify chimneypieces of exactly the scale and style that the rooms demanded.

They were carved in statuary marble and incorporated coloured marbles traditionally found in fireplaces of the period. All were given a light antique finish in Chesneys London workshops prior to installation.

'USING CHESNEYS BESPOKE SERVICE GAVE US A FLEXIBILITY AND CHOICE THAT SIMPLY WOULDN'T HAVE BEEN AVAILABLE HAD WE USED ANTIQUES.

THE CHIMNEYPIECES WERE A GREAT SUCCESS AND ENHANCED THE OVERALL LOOK OF THE DESIGN SCHEME'

CASE STUDY

A LONDON TOWN HOUSE

When Peter Wood & Partners, a long established, London based architectural practice, were retained to remodel an early 19th century listed town house in Belgravia, they came to Chesneys for all the chimneypieces.

Architect Stephen Wood and his clients were able to consult Chesneys uniquely extensive archive of appropriate period chimneypiece designs and select a number of late 18th and early 19th century examples for Chesneys to produce.

Following completion of the project Stephen Wood commented

'I HAVE ALWAYS FOUND WORKING WITH CHESNEYS A REWARDING AND STRAIGHT-FORWARD EXPERIENCE.

IN THIS CASE THEY WERE ABLE TO ADVISE AUTHORITATIVELY ON THE HISTORICAL CONSIDERATIONS GOVERNING THE CHOICE OF CHIMNEYPIECES, AND DELIVERED AND INSTALLED A NUMBER OF BEAUTIFULLY CRAFTED MARBLE CHIMNEYPIECES.'

A CALIFORNIAN HOME

Michael Smith is one of the most respected interior decorators in the USA. Based in California, his work encompasses major projects on both sides of the Atlantic.

For his own home in California, he used Chesneys to supply a selection of bespoke chimneypieces. Architectural in form and using materials ranging from Portland stone to richly coloured Brocatella and Siena marbles, these designs demonstrate Smith's ability to incorporate classical elements into a contemporary setting.

THE CHESNEYS DIRECTORY

A UNIQUE OPPORTUNITY TO SPECIFY A CHIMNEYPiece IN THE TRADITIONAL MANNER

BY OFFERING A WIDE RANGE OF ARCHITECTURAL DESIGNS AND A WEALTH OF CARVED DETAIL THAT CAN BE EXECUTED IN A SELECTION OF AUTHENTIC MATERIALS, THE DIRECTORY COMBINES ALL THE ELEMENTS THAT ARE REQUIRED TO CREATE A TRULY BESPOKE FIRE SURROUND

The Directory contains architectural drawings or 'patterns' for some of the most elegant and popular chimneypiece designs of the 18th and 19th centuries. The 'anatomy' of each design is clearly labelled to enable the specifier to consult the appropriate section of The Directory and select the carved detail for each component and the material in which it is to be carved.

Every carved component offered in The Directory has been copied from an original chimneypiece that has at some time been part of Chesneys stock. This technique guarantees total authenticity of detail, as the carver is not being asked to interpret an illustration but rather to exactly replicate the original form. Every carving is entirely hand produced without the use of any copying machinery, and polished and waxed to an antique finish.

The Directory is a unique resource and is rapidly becoming the standard manual for anyone seeking to recreate an authentic and architecturally correct period chimneypiece that bears the hallmark of personal choice. The programme is available in interactive form online on the Chesneys website and as a traditional printed manual.

ANTIQUES

CHESNEYS HOLDS A UNIQUE STOCK OF HUNDREDS OF ANTIQUE FIREPLACES, FROM SIMPLE VICTORIAN GRATES TO IMPORTANT 18TH CENTURY MARBLE ORIGINALS

We have fireplaces from most periods, in sizes and materials which represent a broad range of English and continental styles. Fireplaces are expertly restored by our own craftsmen in our workshops in London using traditional conservation techniques.

A selection of over 200 antique chimneypieces can be viewed at any one time on our website at: www.chesneys.co.uk.

A much wider selection can be viewed by appointment at our central London showrooms and warehouses.

STONE & MARBLE ARCHITECTURAL WORK

CHESNEYS OFFER A COMPREHENSIVE SERVICE for the design and manufacture of architectural stone and marble work. The technical skills that the company has acquired over the past 30 years in developing its unique range of hand carved fireplaces have also enabled it to undertake a wide variety of architectural projects that require execution of even the most challenging stone work.

Expertly designed and carved, solid stone or marble can endow your building with a distinction and elegance that are timeless.

Whether you're a private client or developer, architect, designer or contractor, Chesneys Architectural helps you achieve that perfection.

We provide a complete service from design, through sourcing, carving and manufacture, to installation – all under seamless project management. Our name is

synonymous with excellence in classical architectural stonework and cantilevered marble staircases.

Many clients, and some of our fellow professionals in construction, over-estimate the challenge of using solid stone or marble in buildings.

Our stock-in-trade is an architectural art form. But with modular design, value engineering and self-supporting elements, this unique contribution becomes a cost-effective component of your programme.

At Chesneys Architectural we have a wealth of experience and expertise that we're eager to share. Even if you are at a very early stage in your planning, call us and we'll give you our best advice.

Chesneys Architectural is RIBA-affiliated and fully compliant with construction industry standards for safety, design and management, and quality assurance.

RE-DEFINING STONE

ARCHITECTURAL SERVICE

DESIGN

Our in-house design capabilities allow us to develop our clients' concepts and improve on designs. This may involve preserving classical proportions, refining the detailing, saving on costs, or enhancing functionality.

Using cutting edge post tensioning innovation alongside traditional building methodologies, our architectural team will develop your designs using 3D modelling and AutoCad, redefining stone and it's application within your project.

ENGINEERING

Structural engineering expertise underpins our design work. Our engineers calculate loadings and assure the integrity of structures. Combining this with our architectural know-how guarantees buildability on site and full compliance with Building Regulations.

PROCUREMENT

Our materials are quarried from proven sources of premium-quality stone and marble. We hold stocks of our core materials, which shortens delivery lead times.

Where a client specifies a different material, we will advise on its suitability and organise delivery to our production plant.

PRODUCTION

Highly skilled carvers and masons prepare the stone and marble to our design team's precise instructions. Our capacity makes it possible to meet tight delivery schedules.

INSTALLATION

An in-house team of stonemasons led by our Project Director is responsible for the entire installation process – from delivery to dusting off the

completed stonework. They understand the dynamics of construction sites and the demands of lifting and placing heavy and valuable stone safely in a challenging working environment.

SKILLS AND EXPERTISE

MULTI-SKILLED TEAM

Our expertise spans structural engineering and project management as well as architecture, design, masonry and manufacture. We believe this breadth of knowledge and experience is unmatched. It means we can control quality and delivery at every stage – from quarry to completion.

What unifies our team is a passion for creating enduring beauty in solid stone and marble. This goes deeper than aesthetics. Our work is all about combining function and form with finesse.

FUNCTION, FORM AND FINESSE

Assured structural integrity and loadings, full compliance with Building Regulations and modular construction for ease of installation.

Concept designs are developed and enhanced. Classical proportions and order produce graceful and visually stunning structures.

Fine craftsmanship, architectural detailing, high-precision fabrication and carefully controlled installation on site secures an outstanding result.

PROJECT MANAGEMENT

Every client has one point of contact at Chesneys Architectural so you will never be passed around different teams or onto subcontractors.

We have extensive experience of contract administration and fully grasp the commercial dimension of building projects. Our role is to advise and liaise with clients and their professional representatives to ensure each project runs as planned.

FIRES

NO NEED FOR A CHIMNEY

Sometimes it isn't possible to install a working fire. There may be problems with the chimney or no provision for a working fireplace. A fire from Chesneys Bio Ethanol Collection will provide an effective solution with living flames, efficient heat output and no need for a chimney.

Bio Ethanol fires are clean and convenient to install. Extracted from plants, the fuel is ecologically friendly and the only by-products released during burning are water vapour, CO₂ and heat. Installation is simple; providing ventilation requirements are satisfied and an electricity supply is available, an ethanol fire can be installed in just about any location.

The Chesneys Bio Ethanol Collection includes fires to fit most fire baskets and grates in our range as well as ribbon burners to suit the most contemporary of interiors.

The collection is split between manually ignited fires and those with automatic ignition and/or remote control.

EFB750 Bio Ethanol fire shown with patinated silver panels and black steel external frame

AUTOMATIC AND REMOTE CONTROL BIO ETHANOL FIRES

These fires are easy to operate; either ignited by remote control or manual automatic ignition so there is no need to use a hand held fire lighter of any description.

Every fire has numerous safety sensors which monitor temperature, movement of the device and fuel levels and ensure that it is impossible to misuse the appliance.

Every fire has a number of easily adjusted flame settings which govern the consumption of fuel, flame height and duration of burn.

Some models are compatible for use with home smart systems.

Uniquely, these fires burn vapour from the ethanol fuel rather than the fuel itself and as a result the burning process is genuinely odourless.

EFB750

The EFB750 ribbon burner can be installed as an inset fire with interior panels in a selection of reflective metal finishes or as a free standing fire. This model is operated by single button manual automatic ignition. The fire has a heat output of 4.0 kilowatt and a burn time, depending on flame setting, of up to 5 hours.

Fuel Type	Bio Ethanol
Volume Capacity	2.75 litres
Fuel Consumption	0.55 litres/hr
Thermal Output Net (max)	4kW/hr - 13648 BTU
Burning Time	5 hours
Air Circulation	Minimum 1/hr
Minimum Room Size	58m ³ per burner
Materials	Powder coated steel

EFB22 Bio Ethanol fire with log effect shown in Soho fire basket with patinated silver slips and Burlington limestone fireplace

EFB22

The EFB22 is available with a realistic hand painted log set and is operated manually using an ignition button with two flame height settings. With a 4.0 kilowatt output, generous flame distribution and 2.75 litre fuel tank the fire can run for up to 5 hours without the need to re-fuel.

Fuel Type	Bio Ethanol
Volume Capacity	2.75 litres
Fuel Consumption	0.55 litres/hr
Thermal Output Net (max)	4kW/hr - 13648 BTU
Burning Time	5 hours
Air Circulation	Minimum 1/hr
Minimum Room Size	58m ³ per burner
Materials	Powder coated steel

EFB1200 Bio Ethanol fire shown with patinated gold panels

EFB1200

The most sophisticated of Chesneys Bio Ethanol fires, the EFB1200 ribbon burner has an integrated control panel with LCD display or can be operated by remote control hand set, smart phone or tablet using an in-built Wi-Fi system.

There are six settings of flame height and the fire can also be linked to a Smart Home system. The fire is available in bespoke sizes to order and can be lacquered in a high gloss finish in any RAL colour.

The EFB1200 can be used as a freestanding fire within a room or installed as an inset fire with interior panels in a selection of reflective metal effect finishes.

Fuel Type	Bio Ethanol
Volume Capacity	6 litres
Fuel Consumption	0.6 - 1.5 litres/hr
Thermal Output Net (max)	3.3 - 8.4kW - 11398 - 28490 BTU
Burning Time	4-10 hours
Air Circulation	Minimum 1/hr
Minimum Room Size	178m ³ per burner
Materials	Powder coated steel

A RANGE OF MANUALLY IGNITED BURNERS DESIGNED TO FIT THE MAJORITY OF THE SMALLER FIRE BASKETS AND REGISTER GRATES IN THE CHESNEYS RANGE.

EACH BURNER IS SUPPLIED WITH A LIGHTING ROD, LIGHTER AND 5 LITRE FUEL CAN AND IS AVAILABLE WITH A CHOICE OF LOGS, COALS OR PEBBLES.

The EFCB18 fits a wide selection of Chesneys fire baskets. The fire features a slider mechanism that allows the amount of heat being generated to be regulated. The EFCB18 is available with a choice of logs, coals or pebbles. It has a 5 litre fuel reservoir with a heat output of 3.5 kilowatt and burn time of approximately 7½ hours.

Fuel Type	Bio Ethanol
Volume Capacity	5 litres
Fuel Consumption	0.64 litres/hr
Thermal Output Net (max)	3.5kW/hr - 13000 BTU
Burning Time (on max)	7 hours 30 minutes (approx)
Minimum Room Size	70m ³ per burner
Materials	Stainless steel
Overall Size	123mm H x 400mm W x 317mm D

The EFCBXS is a smaller, simpler burner ideal for fire baskets that will not accept the larger EFCB18 burner. With a fuel reservoir of 2.5 litres and burn time of approximately 6 hours and heat output of 2.5 kilowatt. Available for use with logs, coals or pebbles.

Fuel Type	Bio Ethanol
Volume Capacity	2.5 litres
Fuel Consumption	0.45 litres/hr
Thermal Output Net (max)	2.5kW/hr - 8530 BTU
Burning Time (on max)	6 hours 30 minutes (approx)
Minimum Room Size	45m ³ per burner
Materials	Stainless steel
Overall Size	76mm H x 340mm W x 190mm D

The EFCB2 burner can be installed with all of the register grates in the Chesneys collection with a set of coals for added realism. It has a 2 litre fuel reservoir and can burn for up to 6 hours with a heat output of 2.5 kilowatt. This burner can also be retro-fitted to a wide selection of antique register grates.

Fuel Type	Bio Ethanol
Volume Capacity	2 litres
Fuel Consumption	0.5 litres/hr
Thermal Output Net (max)	2.5kW/hr - 6180 BTU
Burning time (on max)	6 hours (approx)
Minimum Room Size	45m ³ per burner
Materials	Stainless steel finished in high black temperature powder coat
Overall Size	122mm H x 330mm W x 110mm D

Each burner is supplied with a 5 litre Jerry can, a lighting rod and lighter, operations manual and a custom 'top plate' to fit a Chesneys fire basket.

ALCHEMY
GAS
FIRES

AT THE HEART OF EVERY
FIREPLACE IS THE FIRE ITSELF,
BUT IN TODAY'S BUSY
WORLD MOST PEOPLE DON'T
HAVE THE TIME TO BUILD
AND TEND A REAL FIRE

Chesneys Alchemy Collection of gas fires can provide the solution, offering the beauty and warmth of a living fire at the flick of a switch. A wide range of products include coal and log effect fires to suit the Chesneys range of fire baskets and dogs, the GF range of high efficiency glass fronted gas fires and minimalist gas ribbon burners.

EFFICIENCY

In an era of soaring energy costs Chesneys are committed to supplying products that deliver the highest levels of efficiency with minimum running costs.

FUNCTIONALITY

Alchemy fires harness the latest technology featuring thermostatic room temperature control, variable flame settings and heat output regulated by remote control.

REALISM

Our fires are designed to replicate the flame patterns of a real fire, with a deep life-like glow that is almost indistinguishable from a natural fire.

SAFETY

The Alchemy range has been tested and certified by the UK's leading independent test laboratory and all appliances conform to British Safety Standards.

ALCHEMY GF HIGH EFFICIENCY GAS FIRES

Placing a gas effect fire behind glass and inside a sealed steel chamber exponentially increases its efficiency. Chesneys Alchemy GF range of glass fronted fires embodies precision engineering and intelligent design to deliver outstanding levels of efficiency and a realistic and generous fire.

ALCHEMY DFE LOG AND COAL FIRES

Chesneys exclusive range of fire baskets and decorative urns can all be used with its Alchemy DFE range of gas log and coal fires which look extraordinarily life-like with realistic flame patterns and a deep glow.

Both manual and remote control versions are available.

SOLID FUEL OR GAS

EVERY LIVING ROOM SHOULD HAVE A
FIREPLACE AT ITS HEART AND IN MANY
MODERN BUILDINGS AND PERIOD
CONVERSIONS ACHIEVING THIS CAN
BE A CHALLENGE

Chesneys can provide an effective, attractive and realistic solution with its range of Olympus electric fires. These fires do not require a chimney, flue or pipe work and there are no regulatory or planning issues in relation to their use. Installation is easy with the fire plugging into a 13 amp socket. The electric fires are an aesthetic effect only and do not provide heat.

ELECTRIC STOVES

CHESNEYS RANGE OF ELECTRIC STOVES PROVIDES A REALISTIC ALTERNATIVE TO A SOLID FUEL OR GAS FIRED STOVE WITH A HIGHLY REALISTIC LOG EFFECT FIRE AND A DISCREETLY HIDDEN FAN HEATER

Chesneys range of stoves are renowned not only for their cleanliness and efficiency but also for their good looks. The two most popular designs, the Beaumont and Salisbury, are now available in electrified form.

A 2kW fan heater provides heat with a choice of two settings and the flame effect fire can be used independently of the heater to provide a cosy ambience when heat is not required.

Shown right, the Beaumont electric stove in cream paint finish is shown with the Devonshire limestone surround from the Contemporary Collection.

Shown left, the Salisbury electric stove in black paint finish in the Burlington limestone surround from the Contemporary Collection.

The electric stoves are available in a palette of seven beautiful colours. Choose the ideal colour to complement the design of your room and enhance the look of your stove.

DECORATIVE METAL FINISHES

Designed to enhance the decorative qualities of a fire, Chesneys unique new range of patinated metal effect finishes can be applied to interior panels, slip sets and to the full range of Chesneys fire dogs and andirons for use with ethanol, gas effect and electric fires.

Available in gold, silver, bronze and copper in a randomly patinated antique effect, the reflective quality that these finishes bring to a fireplace setting can add an entirely new dimension to its appearance.

GUIDE TO DIMENSIONS AND MATERIALS

The diagram below identifies the key dimensions common to most fireplaces. Throughout this brochure these are the dimensions that will be given for every design.

All fireplaces in this brochure can be made to bespoke sizes on request.

Chesneys products are handmade and therefore subject to a tolerance of +/- 5mm on stated dimensions.

Although Chesneys will work in any stone or marble, the core collections are carved from the following range of materials sourced from particular regions and quarries.

Statuary marble

A highly prized dense white marble ideally suited for fine sculptural work quarried in the Hebei mountains south of Beijing.

Carrara marble

A grey marble with grey veining extracted from the Polvaccio or Michelangelo quarries in Carrara in Northern Italy. This marble has been used in countless classical buildings and monuments.

Limestone

A tough limestone with a smooth creamy appearance quarried in the mountains of Limya in Turkey and Porto Mos in Portugal.

Bianco Avorio

A roughly textured limestone with attractive fossil displays quarried near Florence in Northern Italy.

Emperador

Quarried in the province of Valencia, Spain, this marble has finely streaked elements of variable colour ranging from brown to beige, set in a beige cement.

English Bathstone

Quarried in the west of England since Roman times, our Bathstone is found near Corsham in Wiltshire and is of a mellow rough appearance.

FIREPLACE GLOSSARY

CAPITAL MOULDING

The decorative detail drawn from the classical orders which sits at the head of the pilaster or column.

CHIMNEYPIECE

The fire surround or mantelpiece.

CORNER BLOCKING

The decorative panel found at the head of the jamb.

CORNICED MANTEL SHELF

A mantel shelf which incorporates a series of architectural mouldings.

DEPTH OF REBATE

The difference between inner jamb and outer jamb.

DETACHED COLUMN

A column that stands free of the jambs of the chimneypiece.

ENGAGED COLUMN

A column that is attached to the jambs of the chimneypiece.

ENTABLATURE

The term to describe the frieze, corner blockings and mantel shelf as one unit.

FIRE BASKET

The grate which houses a fire and sits within the fire chamber.

FIRE DOGS OR ANDIRONS

Decorative supports for a fire basket.

FRIEZE

The cross member between the jambs of a chimneypiece.

FRIEZE TABLET

The decorative panel found at the centre of the frieze.

HEADER AND SLIPS

Non-combustible panels set between the chimneypiece and fire chamber to protect the former from the heat of the fire and ensure a fire that draws safely.

HEARTHSTONE

The non-combustible base upon which the chimneypiece sits, usually slate, stone or marble.

INGROUNDS

Facing slips that form part of the chimneypiece and which frame the opening, sometimes incorporating a contrasting coloured marble.

INLAY

Decorative device in the form of coloured marble in a variety of patterns set into the base marble of the chimneypiece.

JAMB OR PILASTER

The vertical sections or 'legs' of a chimneypiece.

PLINTH BLOCK

The supporting base to the jamb.

REGISTER GRATE

Decorative steel or cast iron unit housing the fire which conceals the brick fire chamber, developed during the 18th and 19th centuries.

Chesneys pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice. For illustration purposes some chimneypieces and baskets may be shown in optional materials or finishes other than standard production specifications.

Bespoke prices are available on application.
