*EMPIRE*

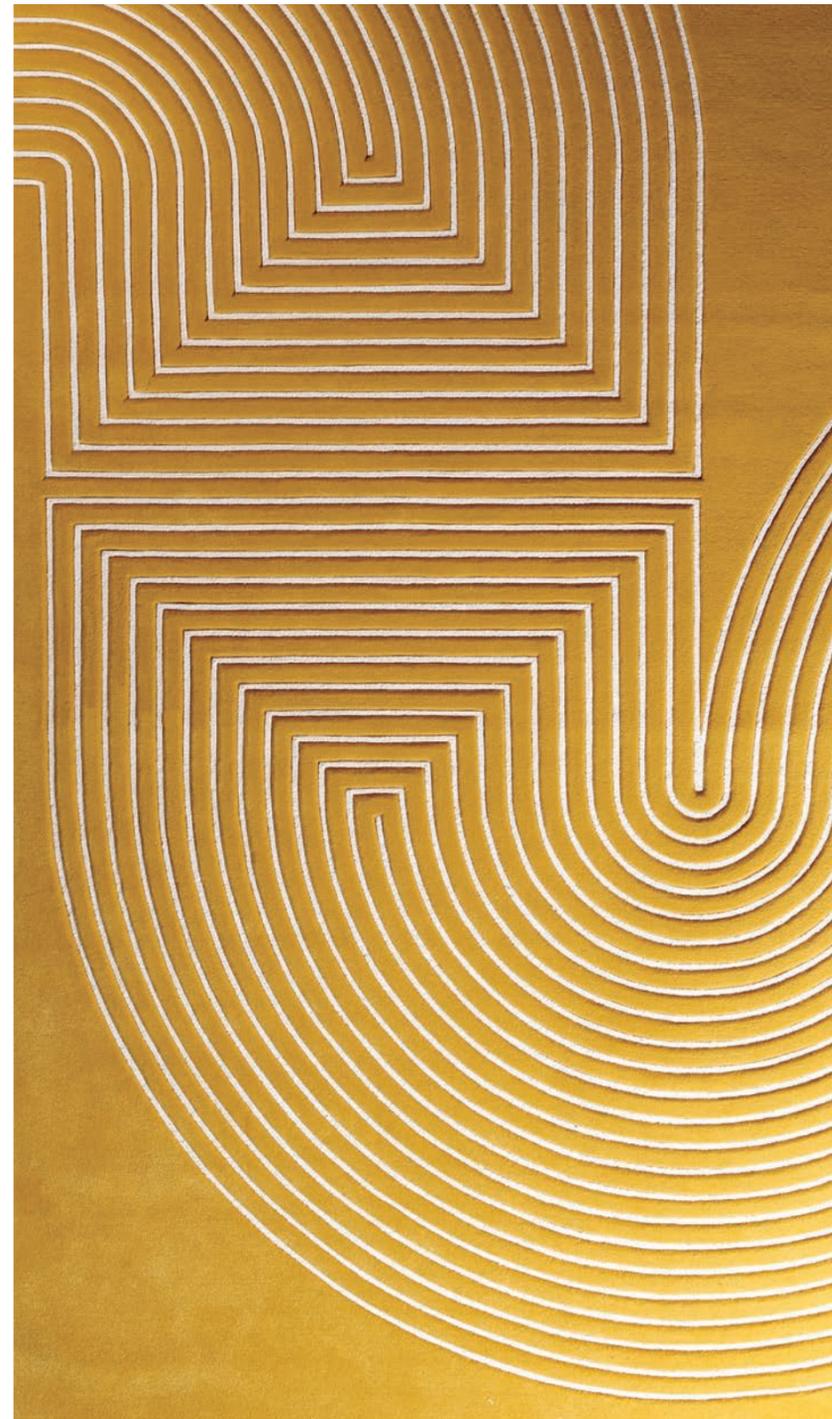

A HOKANSON COLLECTION

# ***EMPIRE STATE OF MIND***

*Some things just never go out of style. Art Deco is not only a movement that altered the landscape of architecture and design in the early 20th century but is equally celebrated in the 21st. The simplicity of line and purity of shape prevails making it so enduring.*

*The Empire Collection is a tribute to this incredible era of Deco influence, translated into a modern aesthetic. It is characterized by geometric shapes, chevron patterns, stepped forms, sweeping curves and bold colors which celebrate a timeless look. Empire is a fresh, liberating approach to a classic movement in design.*

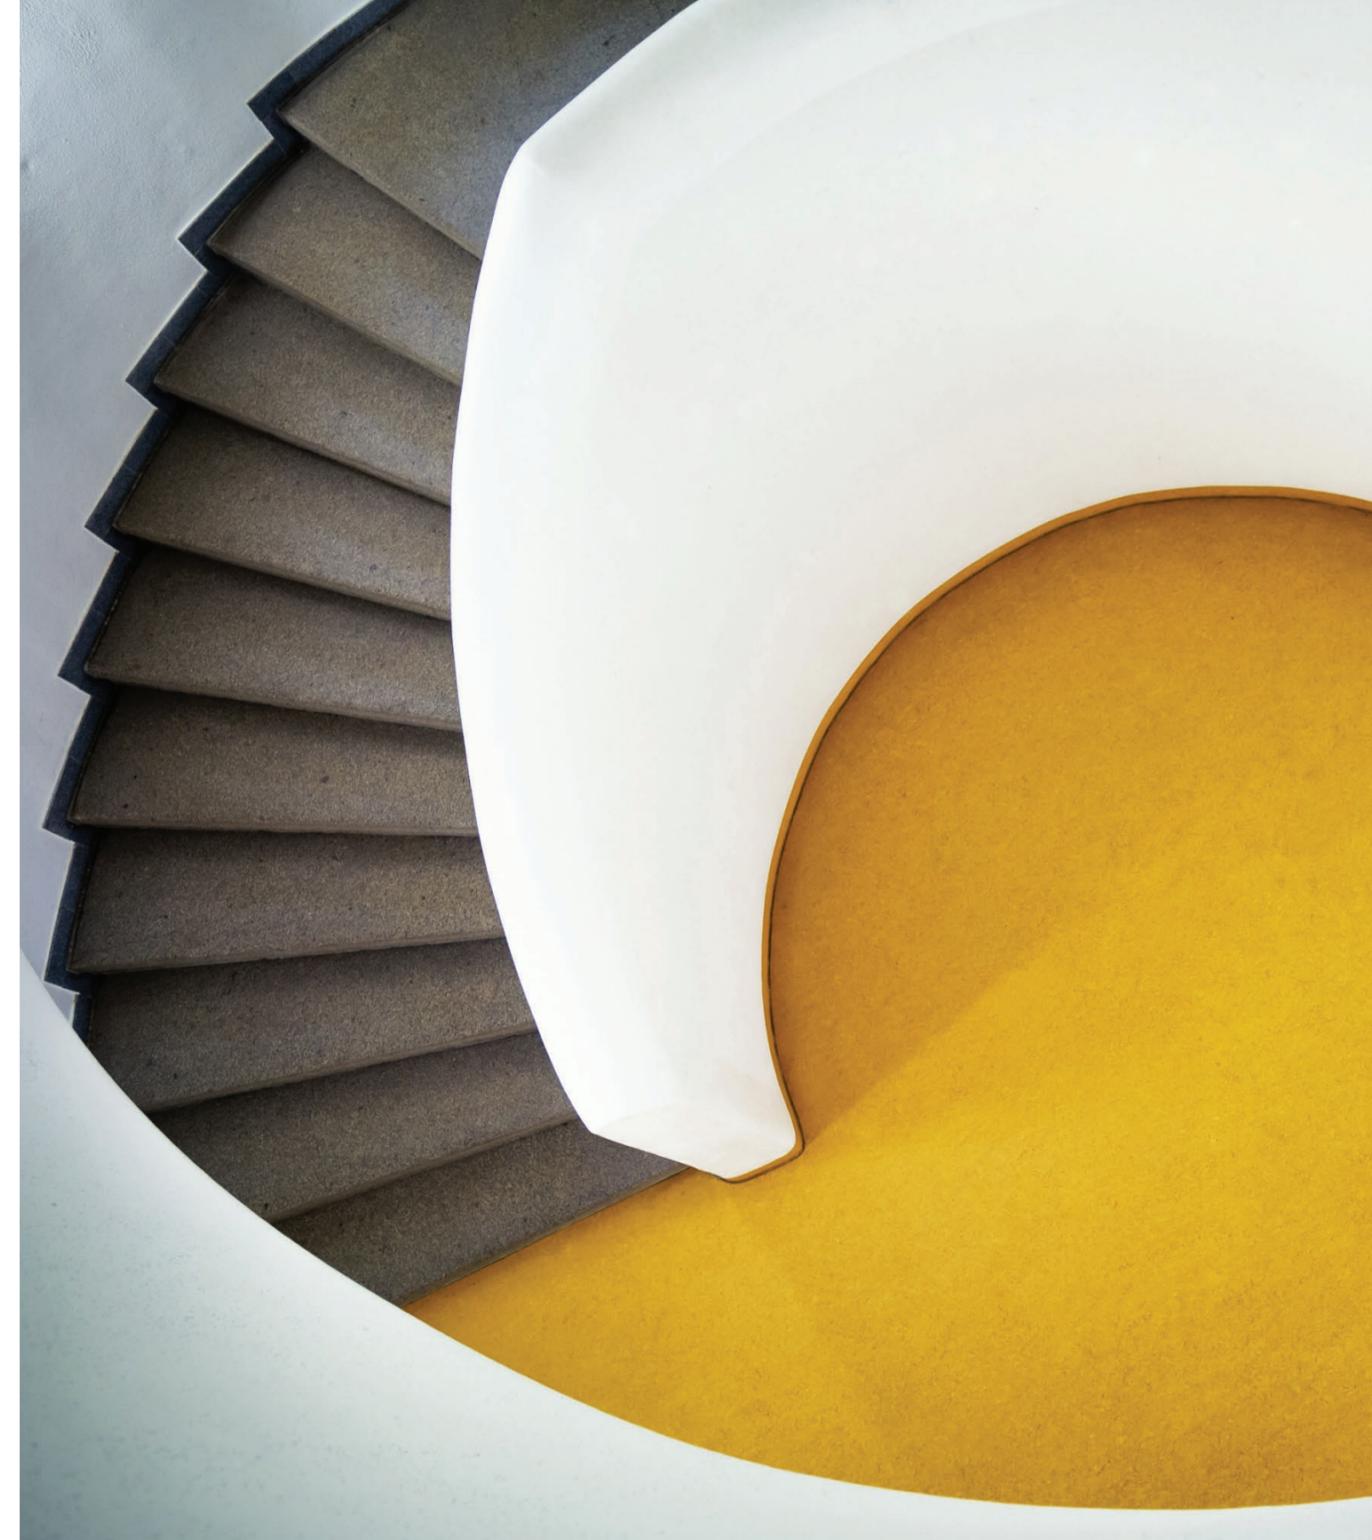

## **KARRI**

*Ochre*

*When incorporated into spaces, curved shapes inherently soften the impact of its surroundings while providing a comforting tone. With an arched form and simple linear structure, Karri provides a modern, streamlined pattern in eye-catching bold hues.*

## **BRICKA**

*Created with a distinctive, modern-stepped design, Bricka provides both sophisticated and luxurious style. A monochromatic, abstract scheme uniquely presents the perfect landscape for exceptional spaces.*

## LATTA

*Deco motifs celebrate a powerful and confident look with strong, structural details. Latta incorporates these formal shapes, less free space, and a more industrial feel. Timeless and modern.*

## LAITON

*Initially inspired by the exuberance of a skyscraper's metal crown, Laiton emulates the long forms with geometric patterning and curved surfaces. Symmetrical patterns play off the distinctive style which translates into a fresh, contemporary design.*
